Dear Dr. Nelson:

Re: BPIAJ BPO Scholarship & Internship Programme

The Business Process Industry Association of Jamaica (BPIAJ) is the national representative body for the BPO industry in Jamaica. The BPO industry has 55 operating firms in five parishes, amounting to 26,000 employees.

At the Business Process Industry Association of Jamaica (BPIAJ); we believe that the BPO industry can benefit from investing in our generation of upcoming professionals. In this regard, the BPIAJ invites you to share the BPO Scholarship & Internship Programme opportunity with your student body.

The primary objective of the Scholarship and Internship Program is to support and build a cadre of professional leaders who are civic-minded, intellectually able, and professionally skilled; who will become the community, business, and industry leaders of the future. The program will offer tuition support to one individual for 2018/9 school year. The selected candidate will also have the opportunity to work part time with the BPIAJ Secretariat which will help to nurture administrative and technical skills as well as ascertain exposure in the world of work.

Thank you in advance for your consideration of this request and we look forward to your support. For additional information, please do not hesitate to contact the undersigned at info@bpiaj.org or 876 619 1713 for additional information.

Sincerely yours,

Julaire Hall (Ms.)
Manager, BPIAJ
